BIBLIOTHECA
REGIA
MONACENSIS.

ADDRESS

OF THE

HOUSE OF COMMONS OF GREAT BRITAIN

TO

HIS MAJESTY.

EXTRACTED FROM THE VOTES,

Veneris, 11° *die Julii*, *Anno* 40° *Georgii* 3^tii *Regis*, 1800.

Most Gracious Sovereign,

WE, Your MAJESTY's moſt dutiful and loyal Subjects, the Commons of Great Britain in Parliament aſſembled, having taken into our Conſideration the State of the Public Records of this Kingdom, and the Neceſſity of providing for the better Arrangement, Preſervation, and more convenient Uſe of the ſame, humbly beg leave to lay before Your Majeſty the Report of our Proceedings thereon; and to repreſent to Your Majeſty, that in ſeveral of the Principal Offices we have found the Public Records preſerved with great Order and Regularity, and in ſome few, with a Method and Care which are exemplary; but that, in many of the moſt important Offices, they are wholly unarranged, undeſcribed, and unaſcertained; that ſome of them are expoſed to Eraſure, Alteration, and Embezzlement, and others are lodged in Places where they are daily periſhing by Damp, or incurring a continual Riſk of Deſtruction by Fire.

A Period of nearly Seventy Years has elapſed ſince the laſt General Parliamentary Inquiry upon this Subject; and, during this Interval of Time, the Change which has taken place in the Language and written Character of Judicial Proceedings, as well as the large Accumulation of Materials which has been progreſſively ſuperadded in every Department, have increaſed the Difficulties of methodizing the ſeveral Repoſitories, or applying their Contents to Purpoſes of practical Uſe.

In the Courſe of our Inquiry we have found that many of the Public Buildings allotted to theſe Uſes, and eſpecially thoſe Buildings which belong to Your Majeſty's Exchequer in all its Branches, comprehending the ancient Records and Muniments of the Rights and Poſſeſſions of the Crown, and the Vouchers and Accounts of the Public Revenues and Expenditure, are in a State ſo incommodious and inſecure, as to require immediate Attention.

It has alſo appeared to us, that the ſalutary Meaſures heretofore adopted by Your Majeſty's Authority, for methodizing the Contents of ſome of the principal Repoſitories of Your Majeſty's Records and Papers of State, might alſo be extended to many other Repoſitories, with Conſequences highly beneficial to the Public Service.

And the ſame Motives which encouraged our Predeceſſors to intreat Your Majeſty's Directions for printing the ancient Records of Domeſday, and the Rolls of Parliament, have alſo

alſo induced us to ſubmit to Your Majeſty's Wiſdom, our Deſire of extending the ſame Meaſure to other ancient and valuable Monuments of our Hiſtory, Laws, and Government.

Your faithful Commons do therefore moſt humbly beſeech Your Majeſty, that You will be graciouſly pleaſed to give ſuch Directions as Your Majeſty, in Your great Wiſdom, ſhall think fit, for the better Preſervation, Arrangement, and more convenient Uſe of the Public Records of this Kingdom.

And we beg leave further to aſſure Your Majeſty, that whatever extraordinary Expenſes may be incurred by the Directions which Your Majeſty, in Your great Wiſdom, ſhall think fit to give on this Occaſion, ſhall be chearfully provided for and made good by Your faithful Commons.

Jovis, 17° *die Julii*;

Anno 40° Georgii 3tii Regis, 1800.

Mr. Chancellor of the Exchequer reported to the Houſe, That their Addreſs of Friday laſt (that His Majeſty would be graciouſly pleaſed to give ſuch Directions as He ſhall think fit, for the better Preſervation, Arrangement, and more convenient Uſe of the Public Records of this Kingdom; and to aſſure His Majeſty, that whatever extraordinary Expenſes may be incurred by the Directions which His Majeſty ſhall think fit to give on this Occaſion, ſhall be made good by His faithful Commons) had been preſented to His Majeſty; and that His Majeſty had commanded him to acquaint this Houſe, that He will give Directions as deſired by the ſaid Addreſs.

COMMISSION

For executing the Meaſures recommended by the House of Commons respecting the PUBLIC RECORDS OF THE KINGDOM.

GEORGE R.

GEORGE THE THIRD by the Grace of God King of Great Britain, France, and Ireland, Defender of the Faith, &c.

To Our right truſty and right entirely beloved Couſin and Councillor *William Henry Cavendiſh* Duke of *Portland*, Knight of the moſt noble Order of the Garter; Our right truſty and well beloved Councillors *William Wyndham* Baron *Grenville*, and *Henry Dundas*, Eſquire, Our Three Principal Secretaries of State; Our right truſty and well beloved Councillors *Henry Addington*, Eſquire, Speaker of the Houſe of Commons, *William Pitt*, Eſquire, Chancellor and Under Treaſurer of Our Exchequer, and Firſt Commiſſioner of Our Treaſury, Sir *Richard Pepper Arden*, Knight, Maſter of the Rolls; *Frederick Campbell*, Eſquire, commonly called Lord *Frederick Campbell*, Our Clerk Regiſter of Scotland, *Sylveſter Douglas*, Eſquire, one of the Commiſſioners of Our Treaſury, Our truſty and well beloved Sir *John Mitford*, Knight, Our Attorney General, Sir *William Grant*, Knight, Our Solicitor General, *Robert Dundas*, Eſquire, Our Advocate for Scotland, and *Charles Abbot*, Eſquire; Greeting.

WHEREAS the Knights, Citizens, and Burgeſſes and Commiſſioners of Shires and Boroughs, in Our Parliament of Great Britain aſſembled, having taken into their Conſideration the State of the Public Records of this Kingdom, and the Neceſſity of providing for the better Arrangement,

Arrangement, Preſervation, and more convenient Uſe of the ſame; have humbly laid before Us a Report of their Proceedings thereon; and have alſo humbly repreſented unto Us, that the Public Records of the Kingdom are in many Offices unarranged, undeſcribed, and unaſcertained; that many of them are expoſed to Erafure, Alteration, and Embezzlement, and are lodged in Buildings incommodious and inſecure; and that it would be beneficial for the Public Service, that the Records and Papers contained in many of the principal Offices and Repoſitories, ſhould be methodized, and that certain of the more ancient and valuable amongſt them ſhould be printed; and have humbly beſought Us that We would be graciouſly pleaſed to give ſuch Directions thereupon as We in Our Wiſdom ſhall think fit.

Now know ye, That We, conſidering the Premiſes, and earneſtly deſiring more effectually to provide for the better Arrangement, Preſervation, and more convenient Uſe of the ſaid Records and Papers, and repoſing great Truſt and Confidence in your Fidelity, Diſcretion, and Integrity:

Have authorized and appointed, and by theſe Preſents Do authorize and appoint you the ſaid William Henry Cavendiſh Duke of Portland, William Wyndham Baron Grenville, Henry Dundas, Henry Addington, William Pitt, Sir Richard Pepper Arden, Frederick Campbell (commonly called Lord Frederick Campbell), Sylveſter Douglas, Sir John Mitford, Sir William Grant, Robert Dundas, and Charles Abbot, and any Three or more of you, to make a diligent and particular Inquiry into the ſeveral Matters which Our faithful Commons have, in the abovementioned Report of their Proceedings, repreſented as fitting to be provided for by Our Royal Authority.

And furthermore, We do by theſe Preſents, give and grant to you Our ſaid Commiſſioners, and any Three or more of you, full Power and Authority to cauſe all and ſingular the Officers, Clerks, and Miniſters of the ſaid Offices and Repoſitories reſpectively, to bring and produce upon Oath before you, or any Three or more of you, all and ſingular Rolls, Records, Books, and Papers, or other Writings belonging to the ſaid Offices or Repoſitories, or any of them, or any Officers within the ſame, and which ſhall be in the Cuſtody of them or any of them reſpectively.

And Our further Will and Pleaſure is, That ye, or any Three or more of you, upon due Examination of the Premiſes, ſhall cauſe ſuch Matters to be duly and ſpeedily executed as ye ſhall judge fitting and proper to be done, for the more effectual Execution of the ſeveral Meaſures recommended by Our faithful Commons in the ſaid Report of their Proceedings relative thereto.

And to the end that Our Royal Will and Pleaſure in the Premiſes may be executed with the greater Regularity and Expedition, We farther by theſe Preſents will and command, and do hereby give full Power and Authority to you, or any Three or more of you, to nominate and appoint from Time to Time ſuch Perſon of Ability, Care, and Diligence, as ye ſhall think fit, to be and act as your Clerk or Secretary, for the Purpoſe of aiding you in the Execution of theſe Preſents; and alſo to nominate and appoint in like Manner ſuch ſeveral Perſons of Ability, Care, and Diligence, as ye may think fit, to be Sub-Commiſſioners, to be employed under your Direction and Controul in the Premiſes, and more eſpecially to methodize, regulate, and digeſt the Records, Rolls, Inſtruments, Books, and Papers, in any of Our Public Offices and Repoſitories, and to cauſe ſuch of the ſaid Records, Rolls, Inſtruments, Books, and Papers as are decayed, and in Danger of being deſtroyed, to be bound and ſecured; and to make exact Calendars and Indexes thereof; and to ſuperintend the printing of ſuch Calendars and Indexes, and original Records and Papers, as ye ſhall cauſe to be printed: Which ſaid Clerk or Secretary, and Sub-Commiſſioners, and every of them, ſhall and may be removed by you, or any Three of you, from Time to Time, at your Will and Pleaſure, full Power and Authority being hereby given to you to appoint others in their Places reſpectively.

And We further will and command, and by theſe Preſents ordain, That ye, or any Three or more of you, ſhall from Time to Time certify, under your Hands and Seals, unto Our Lord High Treaſurer, or unto the Commiſſioners of Our Treaſury for the Time being, what ſhall be a fit and ſuitable Recompence to the above-mentioned Clerk or Secretary, and Sub-Commiſſioners reſpectively, for their Pains and Services in the Execution of the Duties hereby required to be by them performed; which ſaid Recompence it is Our Will and Pleaſure ſhall thereupon be paid to them reſpectively and accordingly.

THE Origin of the Records now published, the Authority by which they were taken, and the Manner of taking them, appear in the Statutes of the 14 and 15 Edw. III. and in the Commissions, and other Records in the Exchequer; from thence the following Statement has been collected.

At the Parliament holden at Westminster the Wednesday next after Mid-Lent, in the Fourteenth Year of the Reign of Our Lord King Edward the Third of England, and the First Year of His Reign in France, Stat. 1. c. 20. the following Grant was made of a Subsidy of the Ninth and Fifteenth: "And for the Grants Releases and Pardons of the said Chattels of "Felons and Fugitives, and many other Things underwritten which the King hath granted "to the Prelates, Earls, Barons, and all the Commons of his Realme for the Ease of them "perpetually to endure, the said Prelates, Earls, Barons, and all the Commons of the "Realme, willingly of one Assent and good Will, having regard to the Will that the "King their leige Lord hath towards them and to the great Travailes that he hath made and "sustained, as well in his Wars of Scotland, as against the Parts of France, and other "Places, and to the good Will which he hath to travail to keep his Realm, and maintain "his Wars, and to purchase his Rights: they have granted to him the Ninth Lamb, "the Ninth Fleece, and the Ninth Sheaf, to be taken by Two Years then next to come. "And of Cities and Boroughs the very Ninth Part of all their Goods and Chattels, to be "taken and levied by lawful and reasonable Tax by the same Two Years, in Aid of the "good keeping of this Realm, as well by Land as by Sea, and of his Wars, as well against "the Parts of Scotland, the Parts of France, Gascoyne, and elsewhere. And in Right "of Merchants Foreign, which dwell not in the Cities nor Boroughs, and also of "other People that dwell in Forests and Wastes, and all other that live not of their "Gain nor Store, by the good Advice of them which shall be deputed Taxers, shall be set "lawfully at the Value to the Fifteen without being unreasonably charged. And it is "not the Intent of the King, nor of other great Men, nor the Commons, that by this Grant "made to the King of Fifteens, the poor boraile People, nor other that live of their "bodily Travaile shall be comprized within the Tax of the said Fifteens, but shall be "discharged by the Advice of them which be deputed Taxers, and of the great Men which "be deputed Surveyors."

By Statute 2. in the same Year, the King willed and granted to the said Prelates, Earls, Barons, and Commons, Citizens, Burgesses, and Merchants that the aforesaid Grant should not another Time be had in Example, nor fall to their Prejudice in Time to come, nor that they be from henceforth charged or grieved to make any Aid, or to sustain Charge, if it be not by the common assent of the Prelates, Earls, Barons, and other great Men, and Commons of Our said Realm of England, and that in the Parliament; and that all the Profits arising of the said Aid, shall be put and spent upon the Maintenance and Safeguard of Our said Realm of England, and of Our Wars of Scotland, France, and Gascoigne, and in no Places elsewhere during the said Wars.

By a Third Statute in the Fifteenth Year of Edward the Third certain Conditions were expressed, whereupon the Subsidy granted in the Fourteenth were given.

Assessors and Venditors were thereupon appointed for every County in England to assess and sell the Ninth and Fifteenth, and Three Commissions were issued directed to Assessors and Venditors named under the Great Seal by the King and Council.

The Execution of the First Commission was confined to a few Parishes only within a County, and within the Assessment and Sale the Ninth of the Religious was included.

A Second

A Second Commission was afterwards issued by the same Authority, and directed (with a few Exceptions) to the same Persons, and this was also imperfectly executed; but it was done in a Way different from the First, by assessing and selling the Ninth of the Articles to be levied according to the Tax or Valuation of Churches completed in 1292, 20 Ed. I. called Pope Nicholas's Taxation. By which Proceeding it seems, that the Assessors and Venditors were to consider the Ninth of Corn Wool and Lambs in 1340 worth as much in a Parish, as the Tenth of Corn Wool and Lambs, and all other tytheable Commodities, and the Glebe Lands were, when the Valuation was made of them in 1292; and within the Assessment and Sale by virtue of the Second Commission the Ninth of the Religious was included.

In the Fourteenth Year of the Reign of Edw. III. the Clergy both of the Provinces of Canterbury and York granted to the King a Tenth for Two Years (besides the former triennial and annual Grants) of all their Property; and within this Grant was intended and included the Spiritualties and Temporalties of Abbies, Priories, and other Religious Houses, and Bodies. All the Property within the Valuation and Tax of 1292, in the Twentieth Ed. I. was subjected to the Tenth, in this Year granted for Two Years, and was afterwards collected agreeable to the Tax Book, or Valor Beneficiorum, now in the Custody of the King's Remembrancer.

Notwithstanding this Grant of a Tenth by the Clergy and Religious, they were assessed and taxed to the Ninth, and both were collected; this Exaction produced from Stratford the Archbishop of Canterbury, a Remonstrance addressed to King Edward, who afterwards (whenever the Grievance was stated) issued a Writ directed to his Treasurer and Barons of the Exchequer, and therein commanded Redress to be given.

From a Review of the Rolls of Parliament, Statutes, Register Books of Monasteries, and Priories, Writs of King Edward III. directed and sent to his Treasurer and Barons of the Exchequer, and other Proceedings of Record in the Court of Exchequer, in the Fifteenth, Sixteenth, and subsequent Years of the Reign of Edward III., it is evident, that from the Laity only the Grant of the Ninth and Fifteenth was considered to proceed, and that from the Religious the Ninth was not to be collected, except from those who held by Barony, and were summoned to Parliament when the Grant of the Ninth was made, and except also upon Possessions acquired by the Religious after the Twentieth Edw. I. which otherwise would wholly escape Taxation, not being included within the Valuation then made and called as already mentioned Pope Nicholas's Valor, which then, and till the Reign of Henry VIII. was used as the Guide for taxing the Clergy, and other Religious Bodies and Men, and was constantly resorted to by the Treasurer and Barons to correct the Accounts of Collectors of a Tenth, and to determine the Liability of Persons and Property, and to what Amount.

A Third Commission was afterwards issued and directed to the Assessors and Venditors on the Twenty-sixth of January, in the Fifteenth Year of the Reign of Edw. III. whereby they were instructed to levy the Ninth of Corn Wool and Lambs in every Parish, according to the Value upon which Churches were taxed (this means Pope Nicholas's Valor and Taxation) if the Value of the Ninth amounted to as much as the Tax, and to levy more where the true Value of the Ninth should be found to exceed the Tax; but should the Value of the Ninth be less than the Tax they were directed to levy only the true Value of the Ninth and to disregard the Tax; and to gain correct Information of these Facts, they were directed to take Inquisitions (the Records now published) upon the Oath of the Parishioners in every Parish.

In these Records it appears that the Parishioners of every Parish found upon their Oath the true Value (sometimes separately) of the Ninth of Corn Wool and Lambs, then the Amount of the antient Tax of the Church was stated, and afterwards the Causes of the Ninth not amounting to the Tax or Value of the Church were assigned, and when the Ninth did not exceed the Tax, it was assigned for Cause thereof, that within the Valuation or Tax of the Church there were other Articles included besides Corn Wool and Lambs, such as the Dos or Glebe of the Church, Tythe of Hay, and other Tythes. And if any Abbey, Priory, or other Religious Corporation, had Property within any Parish, the Ninth arising from such Property was found and returned.
